Panel Fabrics

Luna Textiles' full collection of fabrics suitable for use in panel applications.

As we live in a world that's embracing a socially distant mindset, panel dividers within office spaces are becoming more popular. At Luna, we are happy to provide a wide assortment of textiles suitable for a variety of panel applications.

Within this guide, you'll find an overview of our Panel collection. This includes a highlight of our client favorites and a chart encompassing the entire collection.

Frequently Asked Questions

Where can I find information on a product's acoustic rating?

Ask customer service or your sales rep. They can find this information for you on any products you're interested in.

Where can I find the full details of how to clean Luna panel products?

Each product has a cleaning code with maintenance details on our website. For more information on each code, please visit lunatextiles.com/care-cleaning.

Where can I find information on how a product can be applied to a panel system?

See page 9 and 10 of this guide for its ASTM E84 Class 1 rating. If you have additional questions, please contact customer service or your sales rep for additional information.

Did we miss something you're still curious about? Please connect with your sales rep or our customer service team with any questions.
