2024 Phase Outs

The products included are being phased out over the beginning of 2024. They'll remain available while supplies last.

What was new in 2023?

Broome & Ellwood Expansion

Our design team gave two of our favorites an update in Spring. The well-loved dynamic pattern Broome was injected with fresh energy through an entirely new colorline of eight fresh colors; and the beautiful wool-rich Ellwood pattern was expanded by seven colors.

Echo Collection

In Summer we introduced the Echo Collection, a nod to past techniques and iconic trends, now woven into new, contemporary designs. Each of the four new textiles – Guild, Raya, Wide Wale and Dash - reflects a different time period, but all share a common story of weaving styles, that today, work well together. The collection has a mix of sustainable yet durable upholstery and panel options.

What's coming soon?

We have exciting new introductions planned in 2024, the first being The Return Collection consisting of 3 new beautiful patterns. Watch out for more news in the coming months.

Phase outs 2024

The patterns included in this document are being phased out of our product offering. Between January 1 and December 31, 2024, the products will be available only while supplies last. Once stock is gone, they may be available at a MOQ. To place an order at that point, please work with your Area Business Manager or Independent Sales Representative on what options are available.

If you have questions about stock, please reach out to our customer service department.

Around December 31, 2024, please ensure that all samples are removed from the libraries in your market. We encourage you to recycle them responsibly or donate them to a program who will repurpose them. If we can help dispose of them in any way, please let us know.

Full Product Line Phase Outs

These products are being pulled in entirety — all SKUs and colorways are included. They'll be available while supplies last until December 31, 2024. After that there may be potential for products to be custom ordered if meeting specific MOQs specified by the mill.

Partial Product Line Phase Outs

The products included in this section are being partially phased out — meaning some colorways are staying in the line, while others will be removed. Going forward, there is potential for the phased out colorways to be custom ordered if meeting specific MOQs specified by the mill. The discontinued colors will be available while supplies last through December 31, 2024.
