2023 Phase Outs

The products included are being phased out over the beginning of 2023. They'll remain available while supplies lasts.

The fabrics included in this guide are being phased out of our product offering. Between January 1 and July 1, 2023, the products will be available only while supplies last. Once stock is gone, they may be available at an MOQ. To place an order at that point, please work with your director of sales on what options are available.

If you have questions about stock, please reach out to our customer service department.

Around July 1, 2023, please ensure that all samples are removed from the libraries in your market. We encourage you to recycle them responsibly or donate them to a program who will repurpose them. If we can help dispose of them in any way, please let us know.

Key Phase Out Dates

Jan 1, 2023 —

Phase Outs marked and announced on Luna website

Jul 1, 2023 —

All phased out products will be discontinued and pulled from the website. Products may be available at an MOQ.

Full Product Line Phase Outs

These products are being pulled in entirety — all SKUs and colorways are included. They'll be available while supplies lasts until July 1, 2023. After that there is potential for products to be ordered as a custom meeting specific MOQs specified by the mill.

Partial Product Line Phase Outs

The products included in this section are being partially phased out — meaning some colorways are staying in the line, while others will be removed. Going forward, there is potential for the phased out colorways to be ordered as a custom meeting specific MOQs specified by the mill. The discontinued colors will be available while supplies last through July 1, 2023.
