LUNA

Panel Fabrics

Luna Textiles' full collection of fabrics suitable for use in panel applications.

As we live in a world that's embracing a socially distant mindset, panel dividers within office spaces are becoming more popular. At Luna, we are happy to provide a wide assortment of textiles suitable for a variety of panel applications.

Within this guide, you'll find an overview of our Panel collection. This includes a highlight of our client favorites and a chart encompassing the entire collection.

Fabrics shown— (left to right)

This page: seat — Mason in Celadon; Panel — Framework in Morgan.

Cover: Blueprint in Woods; Stitch in Steam; Metro in Liverpool.

Frequently Asked Questions

Where can I find information on how a product can be applied to a panel system?

For a quick overview, please see page 11 of this document. Otherwise, there is more information on each of the product's pages on the Luna Textiles website.

Where can I find information on a product's acoustic rating?

Talk to your local sales rep about this information. As this is very dependent on the substrate underneath the textile, it can vary significantly from project to project. They'll be able to help navigate the specifics of acoustics depending on what you're working on.

Where can I find the full details of how to clean Luna panel products?

Each product has a cleaning code with maintenance details on our website. For more information on each code, please visit lunatextiles.com/care-cleaning.

Did we miss something you're still curious about? Please connect with your sales rep or our customer service team with any questions.
